Mohammad Ataul Karim

Junior React JS Developer

Mobile: +8801820097052

Email: **karimataulctg@gmail.com**

Address**:** Kotowali, Chittagong

GitHub LinkedIn

Career Objective

A passionate and dedicated frontend developer with a strong foundation in web technologies. Seeking to leverage my skills in React.js and modern UI/UX design to build user-friendly and dynamic web applications. Excited to contribute to a team-oriented environment and grow as a developer.

Skills

Technical Skills:

- **Languages:** HTML, CSS, JavaScript
- **Frameworks/Libraries:** React.js, Tailwind CSS
- **State Management:** Redux, Context API
- **Version Control:** Git, GitHub

Projects

1. Library Management System

Overview: Your Library Management System is a digital platform for organizing, tracking, and managing library resources. It streamlines book borrowing, returns, and inventory control, catering to librarians and members for efficient library operations.

 Live Link | GitHub Client

- **Book Inventory Management:** Librarians can add, edit, or remove books with details (title, author, ISBN, availability status). Real-time updates ensure accurate tracking of book stock and availability.
- **Borrowing & Returns System:** Members can borrow books with automated due-date tracking. Librarians manage checkouts, returns, and late fees, while users view their borrowed items and deadlines.
- **Role-Based Access Control:** Secure authentication (e.g., librarian vs. member) ensures permissions align with roles. Librarians manage inventory and users, while members access borrowing features.

2. Product Hunt

Overview: Product Hunt is a community-driven platform where users can discover, share, and discuss innovative products. It emphasizes user interaction through upvoting, commenting, and submitting new products, fostering engagement around trending tech and tools.

 Live Link | GitHub Client

- **Product Submission & Upvoting:** Users can post new products with details (title, description, URL) and upvote their favorites. The upvote system highlights popular products, creating a dynamic leaderboard.
- **Interactive Commenting System:** Engage in discussions with a threaded comment feature on each product page. Authenticated users can share opinions, ask questions, or provide feedback.
- **Features secure payment integration:** Integrated login via Google (or other providers) ensures secure access. Only authenticated users can post products, comment, or upvote, preventing spam and fostering accountability.

Education

Southern University Bangladesh, Chittagong – MBA (Finance)- 2009 to 2010

Languages

- Bangla(Fluent)
- English (Proficient)
